

Daryl S. Hogg, MBA, AAiP

I help organizations make smart AI decisions.

I'm Daryl Hogg—VP of Technology at ASSP by day, AI strategy advisor through Torvity.

After 20+ years in technology leadership, I've learned that the best advice comes from people who don't have software to sell. That's what Torvity offers: clear-eyed guidance on AI strategy, vendor evaluation, and governance - before you sign contracts or launch pilots that go nowhere.

I work with associations, nonprofits, and mid-market organizations that need to move thoughtfully, not just fast.

If you're exploring AI and want a thought partner who'll give you straight answers, I'd enjoy the conversation.

LETS TALK
